# GOOD TASTE

For moments of true enjoyment.

[www.grovefoods.com](http://www.grovefoods.com)

# Variety and enjoyment for every taste

We are an internationally active group of companies based in the USA, specializing in innovative frozen meal solutions. As a full-service provider in the food service sector, we develop tailor-made supply concepts with our own production facilities and the highest quality standards.

## Moments of pleasure for your well-being

Grove Foods, Inc. is an international health and nutrition group that focuses on frozen meal solutions that make a real difference in everyday life. We develop holistic and scalable concepts for clinics, care facilities, schools, and other providers – with the goal of rethinking nutrition: healthy, economical, well thought out.

In our own factories in Germany and the US, we produce meals where quality is non-negotiable: handcrafted, made from the best ingredients, using modern technology and with a keen sense for the people who serve or enjoy them every day.

With our internationally oriented sales network, we are very familiar with regional requirements, legal frameworks, and local culinary preferences.

## Our expertise. Our commitment.

We focus on culinary craftsmanship rather than pure automation. Because behind our products are people with passion. We rely on tried-and-tested methods while also meeting the demands of the future. This guarantees consistent quality and moments of enjoyment at the highest level.

### ✓ Innovation with vision

Whether food trends, special market requirements, or individual recipe requests – our experienced development kitchen transforms complex requirements into practical products with added value.

### ✓ Consistent quality

Using high-quality ingredients from selected suppliers and transparent traceability, our manufacturing facilities produce a wide variety of food products – with attention to detail and uncompromising quality.

### ✓ Price and process security

We combine agility with reliability: despite volatile raw material markets, we guarantee stable prices and deliver on demand if desired – predictable, transparent, and reliable.

### ✓ Partnership on equal terms

Our team combines decades of experience in industry, gastronomy, and healthcare catering. This expertise makes us a partner who responds flexibly and solution-oriented to individual requirements – committed and fast.

### ✓ Responsibility we live by

We prefer regional and seasonal raw materials, optimize energy flows in production, and work with a CO<sub>2</sub>-conscious supply network. This is how we combine economic efficiency with responsibility.

# Our B2C retail brands

At Grove Foods, we bring together strong brands that stand for diversity, quality, and trust. We offer a broad portfolio of food brands tailored to different customer needs. Whether authentic Italian cuisine, honest comfort food, innovative nutritional solutions, or versatile system offerings – our brands stand for “Brands you trust. Taste you love.”

**MAMMA  
GALLUCCI'S**  
ITALIAN FOODS

**Genuine Italian. Genuine Mamma.**  
**Frozen with love.**

Mamma Gallucci stands for genuine Italian cuisine, just like it's served at home by Mamma: with the finest ingredients, authentic flavors, and a comforting feeling of security. Frozen, convenient, and always served like homemade.

**In Italy,  
food isn't just  
food. It's family.**

# Lotti's Kitchen

## Frozen meals that taste like home

Lotti's Kitchen stands for honest, feel-good dishes that make everyday life a little warmer. These are the classics that you know, love, and always enjoy serving. Our meals combine familiar flavors with the quality of good ingredients. No unnecessary frills, no artificial additives, just honest food that tastes just like you'd expect at home.

Whether it's creamy mac & cheese, hearty meat dishes, or gently spiced side dishes: At Lotti's Kitchen, it's not about trends, but about the feeling of enjoying a real meal.

MADE WITH LOVE FOR HOME  
PUR JOY.  
PUR EASY.

## B2B and healthcare brands

Grove Foods offers a wide range of specialized nutritional solutions that are ideal for professional use in commercial kitchens and healthcare settings, as well as in everyday life – reliable, innovative, and always with the goal of making nutrition easier and safer.

servora

### Better catering. Serve more easily.

Servora stands for innovative nutrition solutions in communal catering – freshly prepared, nutritious, and reliable. Our meals are designed to meet the high standards and diverse dietary requirements of healthcare facilities, educational institutions, and commercial kitchens – tastefully prepared with natural ingredients for maximum enjoyment.

servora soft

### Dysphagia food for moments of real enjoyment

Our specially developed soft food for people with chewing and swallowing difficulties is not only safe to eat, but also balanced and varied. Servora offers a wide selection of pureed individual and menu components for individualized and efficient patient care at a high level.

Thixxa

### The new generation of safe nutrition for dysphagia

Thixxa stands for innovative solutions for swallowing disorders: safe, reliable, and user-friendly. With its Flow and Calo+ product lines, Thixxa supports nutrition tailored to individual needs – from safe fluid intake to targeted calorie enrichment. This means that patients, relatives, and institutions alike benefit from greater safety and quality of life.

# That's what Grove Foods stands for

**Good nutrition starts with clear principles that our customers can rely on.**

As an internationally active group of companies, it goes without saying that Grove Foods takes responsibility throughout the entire supply chain. For us, this means not only implementing clear environmental, social, and ethical standards in our own actions, but also consistently demanding them in partnership-based dialogue with our suppliers and service providers.

Sustainability, human rights, and fair working conditions are not optional for us, but rather the basis of every collaboration. Together with our partners, we are committed to transparent procurement channels, environmentally conscious production, and socially responsible processes – worldwide and binding.

Because we are convinced that only those who act consciously throughout the entire value chain can create high-quality, trustworthy food products in the long term.

Our suppliers are more than just links in a chain – they are co-creators of our products. Whether raw materials, packaging, or transport: we rely on long-term relationships with companies that share our values and support our quality standards.

**100%** **Natural ingredients.**  
**Pure enjoyment.**

## Sustainability as a fundamental principle

For us, sustainable action is not an add-on, but part of our identity. We take responsibility for the environment, society, and economic activity – with the aim of conserving resources, maintaining social standards, and creating sustainable solutions. Sustainability flows into every decision – from product design to the supply chain.

As a manufacturer of frozen foods, we have a dual responsibility: for what we produce and for our ecological footprint. We don't think of sustainability in terms of individual measures, but as a consistent principle that encompasses our entire value chain.

**Responsibility for today,  
for the future of tomorrow.  
At every stage of the value chain.**
